THE H. B. CLAFLIN CO.

A corporation formed under the laws of New Jersey, May 5, 1890, to conduct the wholesale dry goods business of H. B. Claflin & Co. at Church and Worth streets and West Broadway, New York, owning the large building at that location. Of the outstanding stock of this company $4,500,100 is held by the Associated Merchants' Co. On June 25, 1914, Joseph B. Martindale and F. A. Juilliard were appointed Receivers. Receivers were also appointed for 23 different companies conducting department stores in various cities, which companies were controlled by interests identified with the H. B. Claflin Co., the latter having endorsed notes of the 23 companies to the amount of $31,661,829. The H. B. Claflin Co. had debts for merchandise, etc., to the amount of about $9,000,000, and the different concerns showed miscellaneous obligations of about $1,700,000. The total indebtedness was placed at $42,200,000.

Following the receivership a noteholders' committee was formed: Chairman, James S. Alexander, New York. Depositary, Bankers Trust Co., New York. On September 25, 1915, the committee proposed a plan of reorganization. The plan involved the creation of two new companies, viz: the H. B. Claflin Corporation and The Mercantile Stores Corporation. The H. B. Claflin Corporation was to take over the wholesale business of the old company, and all the $6,000,000 stock thereof shall be owned by the Mercantile Stores Co. The latter was to take over such assets of the old H. B. Claflin Co. as were considered desirable, also all the stocks and business of the 23 companies mentioned in the preceding paragraph. The stock of the Mercantile Stores Corporation shall be vested in trustees, and when the indebtedness created in pursuance of the foregoing plan has been paid off, said stock shall be delivered to the H. B. Claflin Co. The trustees selected under the foregoing are James S. Alexander, New York; Ernest A. Hamill,

Chicago; John W. T. Nichols, New York; Philip Stockton, Boston; and Henry W. Howe, New York.

Holders of notes and claims were offered 15 per cent. in cash and 85 per cent. in 3-year collateral trust 5 per cent. income notes of the Mercantile Stores Corporation dated December 1, 1914, the notes to be issued in 24 series, one for each of the concerns involved, and secured by the entire stock of the particular company which executed the original notes to be exchanged for the new notes. This plan was accepted by the great majority of the creditors. The property of the H. B Claflin Co. was sold January 14, 1915, being purchased by the committee.

The foregoing synopsis gives an outline of the arrangement which contemplates the ultimate restoration of all the interests to the old company after the creditors' claims have been fully liquidated.

CLEARFIELD BITUMINOUS COAL CORPORATION

A corporation formed under the laws of Pennsylvania in 1886. The company owned coal lands and mines in Clearfield, Cambria, Blair and Indiana Counties, Pa. In pursuance of a plan for the reorganization of the Pennsylvania Coal & Coke Co., the property of that company was sold at foreclosure in June, 1911, and acquired by this company. A new company, under the title of Pennsylvania Coal & Coke Corporation, was organized in November, 1911, under the laws of Pennsylvania, to which the Clearfield Bituminous Coal Corporation has leased a large portion of the properties, which had belonged to the Pennsylvania Coal & Coke Co., including all interests in subsidiary companies, the lease being not for a term of years but for all the coal in the property leased, the annual minimum rental being $375,000. The lessee is entitled to mine 3,750,000 tons of coal yearly from the properties owned, and 1,500,000 tons yearly from leased lands, paying for coal in excess of this, 10 cents per ton on lands owned in fee, and 2 cents per ton on leased land.

A statement of the old Pennsylvania Coal & Coke Co. was given in the MANUAL for 1911. That company had $5,660,000 of consolidated mortgage 5 per cent. bonds, due 1953, under which the property was sold at foreclosure sale, and purchased subject to prior liens by a committee representing the bondholders which sold the property to this company for $2,500,000 of this company's gold mortgage 4½ per cent. bonds. The plan issued in May, 1911, provided that the bondholders of the Pennsylvania Coal & Coke Co. should pay an assessment of 12½ per cent. and receive stock of the new Pennsylvania Coal & Coke Corporation (of which $7,500,000 is authorised) for the face of their bonds.

THE CLEVELAND RAILWAY CO.

A corporation formed under the laws of Ohio, February 26, 1893, as The Cleveland Electric Railway Co., the name being changed to the present style in 1908, when the property was leased to the Municipal Traction Co. The company was a consolidation of the Broadway & Newburgh Street Railroad Co., East Cleveland Railroad Co., Brooklyn Street Railroad and South Side Street Railroad. In 1903 this company consolidated with the Cleveland City Railway Co. In 1908 The Forest City Railway Co., which had been leased to the Municipal Traction Co., was consolidated with this company.

After protracted difficulties with the City Government of Cleveland, which had organized the Municipal Traction Co., to put in force three cent fares, a settlement was reached in 1908 whereby the stock of this company was readjusted, the franchises renewed for 25 years from

April 27, 1908, with a renewal every ten years, and the property leased to the Municipal Traction Co. At a special election on October 22, 1908, the voters, however, failed to ratify this settlement and a receivership of the Municipal Traction Co. followed in November, 1908. In 1910 this company resumed possession of its property, the lease to the Municipal Traction being cancelled.

In October, 1909, the company and the City Council agreed to submit their differences to the arbitration of R. W. Tayler, United States District Judge, at Cleveland, who heard testimony and arguments and completed an ordinance drafted by the City Solicitor, which provided that the company shall operate its road at cost, this cost to include interest upon its floating and bonded indebtedness and dividends of 6 per cent., and no more, upon its capital stock, which was fixed at the amount then outstanding, viz.: $14,675,600.

The ordinance was passed by the City Council on December 18, 1909, and was submitted to the people at a referendum election on February 17, 1910, and by them approved. The new franchise runs to May 1, 1934. It fixed an initial rate of fare, which should continue for eight months at least, of three cents for a single ride with an additional cent for a transfer. If this rate of fare proved insufficient to enable the company to earn 6 per cent. dividends upon its stock, the fare could be raised, but the maximum fare must not exceed four cents cash, or tickets at the rate of seven for twenty-five cents with an additional cent for a transfer.

Road operated, about 345 miles of track.

Stock.....Par $100.....Authorized, $35,000,000.....Issued, $25,221,200

In order to carry out the merger of the Cleveland City Railway Co. with this company the stock was increased from $13,000,000 to $23,400,000. The holders of the $8,000,000 of stock of the Cleveland City Railway Co. received $130 per share in new stock for their shares.

The old stock was $23,500,000 in amount. Under the terms of the settlement of 1908 it was given a valuation of $12,870,000, or $55 per share, the old stock being exchanged for new on that basis. Of the authorized amount of new stock, $1,805,600 was given in exchange for the property of The Forest City Railway Co.

Transfer Agent, Citizens Savings & Trust Co., Cleveland. Registrar, Guardian Savings and Trust Co., Cleveland.

In 1897 dividends on the old stock were 3 per cent.; in 1898, 3¼ per cent.; in 1899, 2¾ per cent. In 1899 the October quarterly dividend was passed. In 1900 paid 3¾ per cent.; in 1901, 1902, 1903, 1904, 4 per cent.; in 1905 and 1906, 4¼ per cent. Dividends were paid quarterly, in January, April, July and October.

Under the lease to the Municipal Traction Co. dividends of 6 per cent. per annum were guaranteed on the new stock, payable quarterly, in January, April, July and October. The first dividend of 1½ per cent. was paid July 1, 1908, but the October, 1908, dividend was passed and no dividends were paid until April, 1910, when they were resumed and have since continued at the quarterly rate of 1½ per cent.

The Colorado Industrial Co. guaranteed 5s were created in 1904 in connection with the plan of reorganization. It should be noted that Series A, limited to $14,000,000, were convertible into stock at par for the latter between February 1, 1902, and August 1, 1906 (which convertibility has expired), and Series B, limited to $30,000,000, non-convertible. Trustee of the mortgage and agent for the payment of interest, New York Trust Co., New York. The Colorado Industrial Co.'s bonds are secured by the deposit of the securities of the Colorado & Wyoming Railway Co., Crystal River Railway Co., and Rocky Mountain Coal & Iron Co.

The Colorado Fuel & Iron Co. had an issue of 5 per cent. convertible debentures, created in 1901, of which $14,067,000 were outstanding. The company reacquired all the bonds in question and the same were deposited as additional collateral for the Colorado Industrial Co. 5 per cents. In 1913 the Colorado Industrial Co. conveyed said bonds back to the Colorado Coal & Iron Co., receiving in consideration therefor the Fuel & Iron Co.'s real estate holdings, which have been included under the lien of the Industrial Co.'s mortgage. The Colorado Fuel & Iron debentures have been cancelled.

The Rocky Mountain Coal & Iron Co.'s 1st mortgage 5 per cent. bonds, guaranteed by this company, cover about 258,000 acres of coal and timber lands in Las Animas County, Colo.

CONSOLIDATED GAS ELECTRIC LIGHT & POWER CO. OF BALTIMORE.

A corporation formed under the laws of Maryland, February 14, 1905, as the Consolidated Gas Electric Light & Power Co. The company was a consolidation of the United Electric Light & Power Co., Baltimore, and the Wenstrom Electric Co. The company also acquired a majority of the stock of the Consolidated Gas Co. of Baltimore City, and merged that company June 20, 1906, forming the Consolidated Gas Electric Light & Power Co. of Baltimore. The charter specifically empowers the company to engage in the gas, electric light and power business in the City of Baltimore and such other parts of the State of Maryland as the directors may determine. The charter has no limitation as to time. Its operations now extend throughout the City of Baltimore and into the adjacent counties, namely, Baltimore, Anne Arundel and Howard Counties, and it now controls the entire gas and electric lighting business of the City and vicinity.

The company owns the entire capital stock of the Northern Electric Co. and the Mount Washington Electric Light & Power Co. In January, 1907, it acquired the stock of the Roland Park Electric & Water Co.

In November, 1907, the Baltimore Electric Co. was leased for a term of 999 years. About 98 per cent. of the common stock of that company is owned by the Maryland Securities Co., and the latter company's stock is owned entirely by the Consolidated Gas Electric Light & Power Co. of Baltimore. Under the lease, this company guarantees the bonds of the Baltimore Electric Co., both principal and interest, and dividends of 5 per cent. on its preferred stock. The company also operates under lease the Baltimore County Electric Co., doing business in a large part of Baltimore County, and the Patapsco Electric & Manufacturing Co., doing business in Baltimore and Howard Counties.

The company under its contract with the Pennsylvania Water & Power Co. for power transmitted from the Susquehanna River, at McCall Ferry, controls that company's entire power supply for Baltimore and vicinity except the power reserved for the local traction company. In 1912 this company's charter was amended, giving it authority to issue debenture stock on the plan commonly employed in England.

In 1913 the authorized common was increased to $20,000,000, and a plan was approved to retire the preferred stock by issuing common in exchange therefor. Under the arrangement the outstanding preferred was reduced to $5,272,454, an equal amount of the common being reserved to

THE DENVER UNION WATER CO.

A corporation formed under the laws of Colorado, October 14, 1894, the charter being renewed October 9, 1914. The company owns and operates the waterworks of Denver and the adjacent towns, having about 500 miles of mains. It controls the South Platte Canal & Reservoir Co., which in 1904 completed a large storage reservoir. By ordinance of the City and County of Denver, the property of the company and its subsidiary company was appraised during 1907 and 1908 by five hydraulic engineers, two appointed by the city, two by the company, and the four choosing the fifth. The value they placed upon the property, as of January 1, 1908, was $14,400,000. Since the appraisal the company has continued the extension and betterment of its property, and on October 31, 1913, it was appraised at $16,038,379. At the expiration, on April 10, 1910, of the company's franchise, the city voted $8,000,000 of bonds for the purchase or construction of a duplicate plant. Litigation followed, the United States Supreme Court deciding against the company's contentions that the City of Denver was, under the contract terminating in 1910, obliged to either purchase its property at the appraised valuation or renew its contract for a further period of twenty years. Nothing has been done by the city toward the construction of a municipal plant other than to make unsuccessful attempts to sell these city bonds, which can be used solely for construction of a duplicate plant. Litigation as to the legality of the bonds is pending. Recently the authorities of the city took action by ordinance to force, approximately, a twenty-one per cent. reduction in water rates. This action is being contested by the company in the Federal Court on the ground that the ordinance is confiscatory. The case was still pending at the beginning of 1915.

E. I. DU PONT DE NEMOURS POWDER CO.

A corporation formed under the laws of New Jersey, May 19, 1903. The company was formed for the purpose of consolidating the various explosive manufactories controlled by the du Pont interests. This company controlled the Du Pont International Powder Co. and International Smokeless Powder & Chemical Co. In April, 1915, it was arranged that the latter company should be dissolved and its property taken over by the parent company.

In July, 1907, the United States Government brought suit against this company in the United States Circuit Court in Delaware to obtain dissolution of the company as an illegal combination under the Anti-Trust law. On June 21, 1911, the Court decided in favor of the Government. It was announced that the company would make no appeal from the decision, and after extended negotiations between the company and the Attorney General's department a plan was agreed upon and approved by the Court in June, 1912, for the disintegration of the combination and its controlled properties. It provided that the business should be divided between the E. I. Du Pont de Nemours Powder Co. and two new companies, the Hercules Powder Co. and the Atlas Powder Co., in a manner to restore competition. In consideration for the properties conveyed to them the two new companies were to issue to the Du Pont Company their entire stocks and bonds for 50 per cent. of the purchase price in stocks and 50 per cent. in bonds, the latter to be ten-year income bonds with interest at the rate of 6 per cent. per annum if earned. The whole of the stock and one-half of the bonds thus received were to be distributed to the common stockholders of the Du Pont Co. and one-half of the stock distributed to the individual defendants in the suit is to have no voting power. The decree also included the dissolution of various controlled corporations and the distribution of their assets to their stockholders.

The E. I. Du Pont de Nemours Powder Co. accordingly received $6,500,000 stock and $6,500,000 6 per cent. bonds of the Hercules Powder Co. and $3,000,000 stock and $3,000,000 6 per cent. bonds of the Atlas Powder Co. In accordance with the decree one-half of the above bonds and all of the stocks were distributed to the common stockholders of the E. I. Du Pont de Nemours Powder Co. each share of the common stock receiving $11.0555122 in the Hercules Powder Co.'s bonds and 65.000-293971sts of a share of that company's stock together with $5.1025441 in Atlas Powder Co. bonds and 30.000-293971sts of a share of that company's stock.

In March, 1915, a large interest in the stocks of this company was acquired by The du Pont Securities Co., a Delaware corporation, with an authorized share capital of $10,000,000.

GREAT NORTHERN IRON ORE PROPERTIES

A trust created under an agreement dated December 7, 1906, between the Lake Superior Co., Limited (a subsidiary and controlled organization of the Great Northern Railway Co.), and the Trustees of the Great Northern Iron Ore Properties, whereby the stocks of several companies owning iron ore lands and other properties were transferred to said trustees under the terms and for the purposes stated below. The subsidiary companies, whose stocks are held in the trust, control by ownership or lease iron ore lands in Minnesota aggregating about 60,000 acres. The iron ore contents of the lands were estimated as of January 1, 1915, to be 308,111,295 tons.

The lands and leases were, by the agreement of December 7, 1906, transferred to the trustees to be held for the benefit of the stockholders of the Great Northern Railway Co., of record December 6, 1906, or their assigns. In October, 1906, it was announced that the owners of the $150,000,000 share capital of the Great Northern Railway Co., of record December 6, 1906, would receive certificates of a beneficial interest in the ore properties at the rate of one share of said certificates (the same having no par value) for each $100 share of Great Northern Railway stock they held. See separate statement of the Great Northern Railway Co. in the Railroad Section of the MANUAL.

In January, 1907, a lease was made of a portion of the lands, comprising 39,295 acres, of which 19,933 acres were owned in fee, 15,972 acres owned jointly, and 3,389 acres leased to the Great Western Mining Co., a subsidiary company of the United States Steel Corporation. See below for the terms of lease and the decision of the United States Steel Corporation to terminate the same on January 1, 1915, which was carried into effect at the date in question.

Certificates of ben. interest...Par (none)...Authorized, 1,500,000 shares..Issued, 1,500,000 shares.

Certificates are transferred at the office of the trustees, New York.

The first distribution was $1 per share paid September 16, 1907. Further distributions of $1 per share each were paid March 16, 1908, and September 15, 1909. On March 15, 1910; September 15, 1910; December 1, 1910; March 15, 1911; December 27, 1912; November 25, 1913, and December 22, 1914, distributions of 50 cents per share each were paid.

The lease of ore lands to the Great Western Mining Co. was guaranteed by the United States Steel Corporation. It provided that the lessee should mine and ship from the properties a minimum of 750,000 tons of ore in the year 1907, and that the amount shall increase by 750,000 tons each year until it reached 8,250,000 tons, the annual minimum to be thereafter that amount until the ore is exhausted, unless the lease is terminated on January 1, 1915, under an option reserved to the lessee. In October, 1911, it was announced that the United States Steel Corporation had decided to exercise this option, and the Great Western Mining Co. accordingly gave notice that it would terminate the lease on January 1, 1915. Under the lease, the royalty to be paid for the ore is $1.65 per gross ton for ore containing 59 per cent. of metallic iron, the royalty to be increased or decreased on a fixed scale, as the ore may be higher or lower in grade than the above percentage of iron. The royalty of $1.65 per ton applied to ore mined and shipped in 1907, and the base price increases at the rate of 3 4-10 cents per ton each succeeding year. The total amount of ore shipped was 26,235,562 tons, while the royalties paid to December 31, 1914, were $44,833,674, which, however, included freight paid by the lessor to the Great Northern Railway Co.

HOUSTON OIL CO. OF TEXAS

A corporation formed under the laws of Texas in July, 1901. The purpose of the company is to develop oil lands in Texas. The company owns 800,915 acres of land, and has a half interest in 7,082 acres in the Beaumont region of Eastern Texas, and Calcasieu Parish, La. As of March 28, 1911, these lands were estimated to contain 4,386,000,000 feet of yellow pine timber, and 510,080,000 feet of hardwood, together with about 2,300,000 ties. It owns oil lands in the Corsicana, Tex., field, where it is conducting oil operations, as well as in the Saratoga District in Hardin County, Tex. Its oil production in the year ending September 30, 1912, was 97,401 barrels; in 1912-13, 173,967 barrels.

In 1901 the company contracted to sell to the Kirby Lumber Company about 8,000,000,000 feet of standing yellow pine timber of 12 inches and upwards, to be paid for semi-annually. This contract was assigned to the Maryland Trust Company, Baltimore, which, as trustee, issued $7,025,000 of 6 per cent. certificates of beneficial interest in said contract, redeemable in installments February and August of each year. These certificates were guaranteed by this company and secured by a mortgage on its property. The February, 1904, installment of the timber certificates and interest were defaulted, and in the same month both this company and the Kirby Lumber Company were placed in the hands of Receivers. Protracted litigation ensued.

In July, 1908, a compromise was effected and a decree entered with the assent of all parties. Under the decree the amount of timber to be cut by the Kirby Lumber Co. was reduced from 8,000,000,000 feet to 6,400,000,000 feet; the minimum semi-annual payments to be 5/6 of the amount required by the original contract. The Houston Oil Co. was authorized to create a second series of 6 per cent. timber certificates for $3,500,000, in order to discharge its floating debt, cost of receivership, etc. On April 16, 1909, the Receiver was discharged and the company was returned to its own management.

In July, 1911, a readjustment plan was formulated which provided for the funding of the unpaid accumulated dividends on the preferred stock and for the retirement of the 1st and 2d timber certificates, including $1,047,000 interest and expense certificates, and supplying $500,000 additional working capital through the creation of new series 6 per cent. timber certificates for $6,250,000. Holders of the common stock were asked to deposit it and to either surrender 5 per cent. of same or to pay 50 cents cash per share, the assenting stockholders to receive 25 per cent. of the company's profits from oil operations not to exceed 4 per cent. per annum. The plan was declared effective in December, 1911, practically all the stock having assented thereto.

The preferred stock is 6 per cent., cumulative. Under the readjustment plan of 1911 preferred stockholders received 6 per cent. accrued dividend certificates, due 1923–1925, for the 54 per cent. of unpaid back dividends. Since August, 1912, cash dividends have been paid to February, 1915, inclusive, on the preferred stock, payments being semi-annual, February (1) and August.

Transfer agent, Mercantile Trust & Deposit Co. of Baltimore. Registrar, Maryland Trust Co., Baltimore.

The new series certificates are a 1st lien on entire property of the Houston Oil Co., subject only to such of the second issue certificates as may not be immediately retired. These certificates were issued in respect of payments under Kirby Lumber Co. stumpage contract guaranteed by Houston Oil Co. All payments in excess of the minimum are payable to the trustee, for the retirement of timber certificates. Under the Kirby contract, as interpreted by the decree above referred to, in case that company defaults in any of the minimum payments the Maryland Trust Co. has the right to take possession of all the trams, mills and plants of the Kirby Co. and operate the same, applying the proceeds to the interest and principal of the timber certificates.

The new series 6 per cent. timber certificates are $6,250,000 authorized, dated August 1, 1911, interest February and August, due August, 1923, the amount outstanding September 30, 1914, being $4,166,000. Commencing August 1, 1913, they were to be retired by lot at par and interest each six months in minimum amounts of $100,000 from August 1, 1913, to August 1, 1915,

increasing to $490,000 August 1, 1923. They are subject to call at 102½ and interest. Trustee Maryland Trust Co., Baltimore. Of the new certificates, $2,770,000 were reserved to retire the amount of the second issue timber certificates.

Of the second issue, timber certificates bearing 6 per cent., due August 1, 1913 to 19 interest February and August, there were $1,781,610 outstanding on September 30, 1914.

The 6 per cent. accrued dividend certificates, dated January 2, 1912, due February 1, 19 interest February and August, are $2,394,000 authorized. Mercantile Trust & Deposit Co. Baltimore, trustee. The certificates may be called at par and interest, and represent the dividen accrued and unpaid on preferred stock to January 1, 1912. They were issued under an agreeme dated January 2, 1912, under which about 98 per cent. of all of the preferred stock of the Houst Oil Co. was deposited with Mercantile Trust & Deposit Co. of Baltimore. By this agreeme the dividends accrued to January 1, 1912, were separated from the preferred stock by the issue two sets of securities: (1) preferred stock certificates, carrying 6 per cent. dividends from Janu 1, 1912, issued for the preferred stock, par for par; (2) accrued dividend certificates, issued the dividends unpaid to January 1, 1912. Each preferred stockholder received accrued divide certificates for 20 per cent. of par value of his stock, with coupons at rate of 6 per cent. fro August 1, 1911, to maturity. The certificates have priority, both as to principal and intere over the preferred stock and current dividends thereon.

In the year ending September 30, 1913, total timber receipts and other income, $1,504,83 net over expenses and taxes, $1,125,502; interest on timber certificates, $377,793; prefer dividends, $659,408; balance surplus, $88,301. In 1913-14, total receipts, $1,540,671; receipts, $1,253,098; interest, $370,428; preferred dividends, $659,408; discounts and adju ments, $232,530; balance deficit, $9,269.

INTERBOROUGH-METROPOLITAN CO.

A corporation formed under the laws of New York, January 24, 1906. The company was formed in pursuance of the plan for a combination of the subway, elevated and surface traction interests in New York City represented by the Interborough Rapid Transit Co., including its leased property, the Manhattan Railway Co. and the Metropolitan Securities Co., the Metropolitan Street Railway Co. and the New York City Railway Co. The plan became effective in March, 1906. The full details of the plan are given in the MANUAL for 1908. This company holds $33,912,800 stock of the Interborough Rapid Transit Co.

Under the reorganization plan for the Metropolitan Street Railway Co., which became effective December 31, 1911, when the Railway Company's property was taken over by the New York Railways Co., this company received $15,270,100 out of the $17,500,000 stock of the new company against its holdings of Metropolitan Street Railway stock.

Under date of April 23, 1915, the directors submitted a plan to be voted on by the stockholders on June 1, 1915, to readjust the affairs of the company. In substance it embraced the consolidation of the present company with a small subsidiary concern, the Finance and Holding Corporation, the name suggested for the new organization being the Interborough Consolidated Corporation. The new company shall have a nominal authorized stock capital of $50,000,000, and is to issue its preferred shares (par $100), the same to be 6 per cent., non-cumulative, in exchange for the 5 per cent. cumulative stock of the Interborough Metropolitan, this exchange to be made on a dollar for dollar basis. The increase to a 6 per cent. non-cumulative rate on the new preferred was proposed with a view to the surrender of the accumulated unpaid dividends on the old preferred. The common stock of the new company shall be issued in shares

without any par value to the amount of 932,621 shares, one share of the same to be given in exchange for each share (par $100) of the old common stock.

Stock..Par $100...Authorized { com., $100,000,000 / pref., 55,000,000 } Issued { com., $93,262,192 / pref., 45,740,000 } $139,002,192

The preferred stock is 5 per cent., cumulative, and has a preference as to assets. Dividends are payable quarterly on January (1), April, July and October. The preferred cannot be increased without the consent of two-thirds in amount of its holders, and no stock having prior rights can be created. The preferred has no voting power except in the event of a default in the payment of dividends and as long as such default shall continue.

All the common stock was deposited in a voting trust which terminated March 6, 1911. A new voting trust for both the common and preferred stock for five years from March 6, 1911, was created and about 90 per cent. of the common and 75 per cent. of the preferred stock are deposited under the extended voting trust. The voting trustees are: August Belmont, Edward J. Berwind, Andrew Freedman, Theodore P. Shonts and Cornelius Vanderbilt. Secretary, H. M. Fisher, 165 Broadway, New York.

On July 2, 1906, the first quarterly dividend of 1¼ per cent. was made on the preferred stock, and like payments were made in October, 1906, and in January, April and July, 1907, since which last-mentioned date dividends have been suspended. There was at the beginning of 1915 about 38 per cent. of accumulated unpaid dividends on the preferred stock.

After January 1, 1906, the rental became 7 per cent. per annum on the stock of the leased company and is now paid at that rate. See the separate statement of the Manhattan Railway Co. in this edition of the MANUAL.

The agreement with the City, under the contract entered into in January, 1900, which contract was assigned to the Rapid Transit Subway Construction Co., included provisions that the City should issue bonds to the amount of $35,000,000 to pay for the construction of the tunnel, and that the contractor should give a bond of $5,000,000 for the construction and equipment of the road and a continuing bond of $1,000,000, four and a half years being allowed for the completion of the work. Under the terms of the agreement the contractor acquired a lease of the road for fifty years, with the right to renew the same for twenty-five years additional. The rental provided for is the amount of interest paid by the City on its bonds, issued for the purpose, including interest during construction, and in addition 1 per cent. per annum on such cost of construction, there being provisions in regard to an increase of the rental when the gross earnings of the property exceed $5,000,000 per annum. In case of a renewal for twenty-five years, the rental shall be not less than the average amount paid by the company for the last ten years of the original lease. The company agreed to provide and pay for the electrical equipment, rolling stock and other accessories of the road, the estimated cost of which was about $20,000,000.

The agreement in connection with the construction of the line between the City Hall, Manhattan, and Atlantic avenue, Brooklyn, was that the company should build the same for $3,000,000, supplied by the City, but this part of the work cost considerably more than that sum.

The bonds created by the City in connection with the construction of the original subway were both 3 per cent. and 3½ per cent., and were issued as the work progressed, payments by the City to the contractor being made by installments as the work progressed.

In 1913 a contract was formulated by the City authorities, the Public Service Commission and this company whereby the company was to take a share in the so-called "dual system," involving the building by the company and the City jointly of some 48½ miles of additional lines, making 146.8 miles of single track, to form part of this system. In March, 1913, this contract was formally ratified by the Public Service Commission and the City. Under this contract the City is to expend approximately $66,000,000 upon the new lines, the company's contribution thereto being approximately $107,000,000. The company is entitled to about $14,700,000 per annum from the earnings of the entire property before the City receives return therefrom.

The 1st dividend paid on the stock was 2 per cent., July 1, 1904. On January 2, 1905, 3 per cent. was paid. These dividends, it was understood, represented surplus profits derived from the lease of the Manhattan Railway Co. In January, 1905, it was announced that dividends would henceforth be paid quarterly, and the dividend paid April 4, 1905, was 1¾ per cent. quarterly. The July, 1905, dividend was, however. 2 per cent., which was also the rate paid in October, 1905, and January and April, 1906. The July, 1906, and subsequent quarterly dividends were 2¼ per cent each, or at the rate of 9 per cent. per annum, until October, 1911, when 2½ per cent. regular and 1 per cent. extra was paid, the extra dividend being to make the total dividends for 1911, 10 per cent. On January 2, 1912, paid 2½ per cent., which has since been the regular quarterly rate. In June, 1912, a special extra dividend of 5 per cent. was paid. In May, 1913, paid 2 per cent. extra. In July, 1914, paid 5 per cent. extra, and again in January, 1915, 5 per cent. extra was paid. In April, 1915, another extra dividend of 5 per cent. was declared.

1st and refunding mort., 5 per cent., due January, 1966, January and July..... $98,658,000

The mortgage for the bonds provides that interest thereon shall be free of deduction for taxes except the Federal Income Tax.

The 1st and refunding mortgage created in 1913 is for $300,000,000 authorized. Trustee, Guaranty Trust Co., New York. Interest paid at the company's office, New York. The bonds are subject to call at 110 for the sinking fund of 1 per cent. per annum, or at the company's option as a whole, or in blocks of $500,000. The Public Service Commission authorized an issue of $160,957,000 of the bonds for the company's contribution to the cost of the new subway lines and the refunding of the old bonded indebtedness of the company. The mortgage securing the bonds has been recorded with the recording tax paid, making them free of New York State and City taxes. The company had a gold 5 per cent. mortgage for $55,000,000, of which $33,000,000 were issued, due November, 1952, May and November. INTERNATIONAL HARVESTER CO. OF NEW JERSEY

A corporation formed under the laws of New Jersey, August 12, 1902, the words "of New Jersey" being added to its legal title in February, 1913. The company purchased the following agricultural machinery manufacturing plants:

McCormick Harvesting Machine Co.
Plano Manufacturing Co.
Milwaukee Harvester Co.
Deering Harvester Co.
The Warder, Bushnell & Glessner Co.

The company also owns or controls timber land, coal, ore, blast furnaces and steel properties. In 1903 acquired D. M. Osborne & Co's. works, at Auburn, N. Y. In 1905 acquired Weber

Wagon Co.'s works, Chicago; Aultman & Miller Buckeye Works, Akron, O.; Keystone Works, Sterling, Ill.; and Minnie Harvester Works, St. Paul. In 1906 purchased the J. S. Kemp Manufacturing Co.'s works, Newark Valley, N. Y.

On January 27, 1913, the International Harvester Corporation was incorporated in New Jersey to take over the concerns manufacturing so-called "new lines" of products and the foreign plants and foreign business of the original company. The plan to that end included an exchange of one-half of the stocks of this company for an equal amount of the stock of the new corporation. See below. Also see statement of the International Harvester Corporation.

Stock....Par $100... Authorized { com., $40,000,000 / pref., 30,000,000 } Issued { com., $40,000,000 / pref., 30,000,000 } $70,000,000

The stock was originally $120,000,000, all common. In January, 1907, the stockholders voted to divide the stock into $60,000,000 of common and $60,000,000 7 per cent. cumulative preferred stock, the latter to carry dividends from February 15, 1907.

In January, 1910, the common stock was increased from $60,000,000 to $80,000,000, and the additional $20,000,000 stock distributed as a stock dividend of 33⅓ per cent. to the common stockholders, representing profits theretofore withheld from dividends on that class of stock.

At the time of the separation of the foreign business and the formation of the International Harvester Corporation, the stock of this company, authorized and issued, was $80,000,000 common and $60,000,000 preferred. The plan involved the reduction of the stocks authorized and issued to $40,000,000 common and $30,000,000 preferred, the stockholders receiving for the one-half of their stock surrendered an equal amount of the same class of stock of the International Harvester Corporation.

The first dividend on the old common stock of $120,000,000 was 3 per cent., paid November 10, 1903. A second dividend of 4 per cent. was paid November 10, 1904, and 4 per cent. was also paid November 10, 1905, and November 12, 1906.

The first dividend paid on the new preferred stock was 1¾ per cent. quarterly, June 1, 1907, and similar quarterly dividends have since been paid in March (1), June, September and December, being at the full rate of 7 per cent. per annum.

The dividend of 33⅓ per cent. in common stock above referred to was paid to common stockholders of record February 3, 1910. An initial cash dividend of 1 per cent. was paid on the common, April 15, 1910, and similar quarterly dividends were paid in July and October, 1910, and on January 15, 1911. In April, 1911, paid 1¾ per cent., and subsequent quarterly dividends have been at that rate, or 5 per cent. per annum, to April 15, 1915, inclusive.

KANSAS CITY RAILWAY & LIGHT CO.

A corporation formed under the laws of New Jersey, May 8, 1903. The company acquired the outstanding capital stock of the Metropolitan Street Railway of Kansas City and the Kansas City Electric Light Co. It owns all the stock of the Kansas City & Westport Belt Railway Co., and of the Kansas City Heating Co. Through its subsidiary companies it acquired the following properties:

Central Electric Railway Co.	Consolidated Electric Light & Power Co.
Kansas City Elevated Railway Co.	Standard Electric Light Co.
Edison Electric Light & Power Co.	Kansas City Electrical Wire Subway Co.

The company owns and operates the entire street railway and electric lighting systems of Kansas City, Mo., and Kansas City, Kan. It operates 138.6 miles of road, comprising 265.9 miles of track.

In June, 1911, the Metropolitan Street Railway, the controlled organization, was placed in the hands of Robert J. Dunham and F. F. Harvey, Kansas City, as Receivers. There was no default in interest, and this action was understood to be at the instance of security holders pending a definite arrangement with the Kansas City authorities respecting franchises, this being necessary in order to finance the operating company's maturing bonds. Foreclosure proceedings under the Metropolitan Street Railway consolidated mortgage were begun in June, 1912, and committees were organized to represent the security holders. In July, 1914, a new franchise ordinance was ratified under which the allied railways might be merged, the value of the properties in Missouri being placed at $25,648,806 as a basis for the capitalization. On this the reorganized company may earn 6 per cent., cumulative, and the balance above that (after $6,300,000 from earnings have been expended on the property) shall be divided, two-thirds to the city and one-third to this company. The city at the end of 30 years shall have the right to purchase this property in Missouri at the above valuation and any additions thereto.

In February, 1915, a plan for reorganization under the new franchise was proposed, but the Federal Court, to which the plan was submitted, disapproved of same. It was expected that an acceptable plan would be formulated by July 1, 1915.

The company holds in the treasury $2,864,500 common and $2,977,900 preferred stock.

The payment of dividends on the preferred stock began with a quarterly dividend of 1¼ per cent. June 1, 1904, and thereafter regular quarterly payments of the same amount were made, the dividend periods being March, June, September and December. The June 1, 1911, dividend was, however, passed, and none has since been paid.

There is a committee representing the stockholders, Continental & Commercial Trust & Savings Bank, Chicago, depositary.

MASSACHUSETTS ELECTRIC COMPANIES

A voluntary association organized in Massachusetts in 1899. The association is managed by a board of fifteen trustees, who hold title to its assets. The declaration of trust contains provision against the creation of any indebtedness whereby shareholders can become personally liable. The association acquired through ownership of all or a majority of their stock thirty-six railway and electric lighting companies in Massachusetts, New Hampshire and Rhode Island. The trustees, however, procured the merger of the various companies, and in 1911 they consisted of the Old Colony Street Railway Co. and the Boston & Northern Street Railway Co. In the year last mentioned the name of the Boston & Northern was changed to the Bay State Street Railway Co. and it absorbed the Old Colony Street Railway Co. All the common stock of the Bay State Street Railway Co. is owned by the parent company.

The following companies are controlled through lease:

Boston & Chelsea Railroad Co.	Winnisimmet (Street) Railroad Co.
Boston & Revere Electric Street Railway Co.	Nashua Street Railway.
East Middlesex Street Railway Co.	Newport & Fall River Street Railway Co.

The system comprises 924.74 miles of track, of which 858.83 miles are owned by the Bay State Street Railway Co. and 65.91 miles are leased. The power stations have an aggregate capacity of 60,275 horse-power.

The organization since its formation has provided a large amount of cash to extinguish the floating debts of the various companies and to improve the properties, and has, by consolidation of various companies it controls and in other ways, economized their expenses and increased their earnings. In 1903 the Boston Elevated Railway Co. leased the portion of the Old Colony Street Railway in the city of Boston for 99 years at an annual rental of 6⅜ per cent. on an appraised value of $353,000. In January, 1912, the company sold the stock of the Hyde Park Electric Light Co. to the Edison Electric Illuminating Co. of Boston.

The shares are in the form of certificates issued by the trustees and representing proportionate participation in the organization. The preferred shares are 4 per cent., cumulative. In 1911 it was decided to pay the accrued back dividends on the preferred, amounting to 17⅜ per cent., in warrants for additional preferred stock, the new stock to be delivered July 1, 1912. This involved the issue of $3,648,938 additional preferred. Included in the issued preferred stock given above are $468,600 on which the back dividends have not been adjusted in the manner described, together with $85,462 of warrants for preferred stock.

Transfer Agent, Old Colony Trust Co., Boston. Registrar, American Trust Co., Boston.

The first dividend on the preferred shares was 2 per cent., semi-annual, paid December 1, 1899. A second dividend of 2 per cent. was paid June 1, 1900. In December, 1900, the dividend period was changed to January and July, and 2½ per cent. was paid on the preferred January 1, 1901; 2 per cent. was subsequently paid on the preferred, in July (1) and January, until January 1, 1905, when the dividend was passed, and none was paid until 1 per cent. was distributed January 1, 1909. In July, 1909, 1½ per cent. was paid, in January, 1910, 1¾ per cent. and in July, 1910, 2 per cent., which was also the rate paid in January and July, 1911, to 1914, inclusive, and January, 1915.

There is outstanding $2,748,600 of 6 per cent. cumulative 1st preferred stock of the Bay State Street Railway Co., the dividends thereon being semi-annual in February and August and the stock subject to call at 120.

In the same agreement it was provided that the New England Navigation Co. should dispose of its interest in the Eastern Steamship Co. The question of the retention of control of this company, and through it of the steamboat lines, by the New York, New Haven & Hartford Co., was left to the decision of the United States Interstate Commerce Commission.

Transfer Agent, Corporation Trust Co., Jersey City. Registrar, Equitable Trust Co., New York.

The first dividend paid on the preferred stock was 1½ per cent., quarterly, November 29, 1899. Dividends at the same rate have since been regularly paid on the preferred, quarterly, February, May, August and November. The first dividend on the common was declared in August, 1900, and was 3 per cent. half-yearly, payable in two instalments of 1½ per cent. each on September 20 and December 20, 1900. In 1901, 6 per cent. was paid on the common in quarterly payments of 1½ per cent. each in March, June, September and December. The September, 1902, dividend on the common was 2 per cent., or 8 per cent. per annum, which continued to be the regular quarterly rate until June, 1904, inclusive. The September, 1904, dividend was, however, reduced to 1¾ per cent. which was the regular rate to March, 1913, inclusive. The June, 1913, common dividend was passed. On January 2, 1907, the common received a stock dividend of 40 per cent.

In December, 1909, it was decided to call the original Pratt & Whitney preferred on January 1, 1911, and to issue $1,806,600 of new preferred entitled to 6 per cent. dividends, the dividends being guaranteed by the Niles-Bement-Pond Co. (provided the latter earns the same upon its own stock), and redeemable January, 1921. The preferred stock of the Niles Tool Works is $1,000,000, not guaranteed, but 6 per cent. is paid thereon, the dividend being quarterly, March. PHILADELPHIA COMPANY

A corporation formed under the laws of Pennsylvania, May 24, 1884. It originally operated as a natural gas company. In January, 1899, control was acquired for the purpose of a general consolidation of lighting and traction organizations in Allegheny County, Pa., and its environs. See the MANUAL for 1902 for a detailed account of the various consolidations and acquisitions.

The company is controlled by the United Railways Investment Co. See below.

The company owns or controls by lease the following street railway properties:

Pittsburg Railways Co.
The Beaver Valley Traction Co.
Pittsburg & Beaver Street Railway Co.

It also owns or controls by lease the following electric and lighting companies:

Duquesne Light Co.
South Side Gas Co.
Consolidated Gas Co., Pittsburgh.

In January, 1913, all the property of the Allegheny County Light Co., including its lease of the Monongahela Light & Power Co. and the Southern Heat, Light & Power Co., was leased to the Duquesne Light Co. for 50 years.

Through its own lines and those of a number of companies controlled it supplies nearly all the natural gas consumed in Pittsburgh and the adjacent towns. The principal fuel gas concerns included in the system are:

Philadelphia Co. of West Va.
Equitable Gas Co., Pittsburgh.
Penna. Natural Gas Co.
Union Gas Co. of McKeesport.
Allegheny Heating Co.
Pittsburgh & West Virginia Gas Co.
Chartiers Valley Gas Co.

The total mileage of the street railways owned and controlled is 650 miles. For convenience and economy they are all operated, under agreement, by the Pittsburg Railways Co., one of the constituent concerns. The Beaver Valley Traction Co., 36 miles, was acquired in July, 1905, and with the Pittsburg & Beaver Street Railway, 15 miles, is operated separately.

The electric and illuminating gas properties are the only ones supplying the City of Pittsburgh with such facilities. They are operated by the Duquesne Light Co., Pennsylvania Light & Power Co., Consolidated Gas Co. of the City of Pittsburgh and the South Side Gas Co.

In connection with its natural gas business the company leases 806,710 acres of gas lands in Pennsylvania, Ohio and West Virginia.

In February, 1906, a plan was formulated for the acquisition of control of this company by the United Railways Investment Co. A proposition was submitted to this company's common stockholders to sell 16-30 of their holdings to the United Railways Investment Co., receiving for each $50 share $37.50 in collateral trust bonds secured by the stock acquired and either $20 in stock of the United Railways Investment Co. or $10 in cash. Under this arrangement $21,000,000 of the common stock was acquired. In April, 1907, $3,200,000 additional of the stock was acquired. See statement of the United Railways Investment Co.

PHILADELPHIA RAPID TRANSIT CO.

A corporation formed under the laws of Pennsylvania, May 1, 1902. The company acquired by lease the Union Traction Railway system, comprising the lines of the Philadelphia Traction Co., the Electric Traction Co. and the Peoples' Traction Co. See statement of the Union Traction Co. It also acquired the capital stock and franchises of various companies, a list being given in the MANUAL for 1909.

A number of companies originally acquired have been consolidated with the Market Street Elevated Passenger Railway Co. Additional companies were formed in the interest of this company to build new lines of about 119 miles. The company owns the Doylestown & Willow Grove Railway Co., the Philadelphia & Willow Grove Railway Co. and the Real Estate Holding Co. It leases the Chester & Philadelphia Railway, 25 miles.

The company owned a subway and elevated railway in Market street, Philadelphia. The subway extends from Second street to Twenty-third street, and the elevated structure from Twenty-third street over the Schuylkill River to Sixty-ninth street, also elevated structure on Delaware avenue from Market street to South street.

The total of all lines operated, including leased properties, is 664.23 miles of track.

On July, 1907, an agreement authorized by an ordinance of the City Council was made between the company and the City of Philadelphia providing for a readjustment of the relations between the City and company. The plan conferred upon the City the right to purchase after June 30, 1957, all leases, franchises and property of the company at the company's actually paid-in capital, with the right to assign or sell this option. A sinking fund was to be established, to be taken out of the gross receipts of the company, which, calculated at 4 per cent., would amount to at least $30,000,000 at the expiration of 50 years, to enable the City to acquire the property at that time. Beginning January 1, 1907, the City was to share equally in the net profits after stockholders had received 6 per cent. per annum, cumulative from January 1, 1907, on the capital actually invested by them. All franchises for further surface, elevated or underground railroads within the City are to be first offered the Philadelphia Rapid Transit Co. The City was also to have three members on the board of directors. The present rate of fare is not to be changed except with the consent of both parties. The agreement also provided for a fixed payment to the City in lieu of the license fee per car.

In 1910 negotiations were undertaken for a comprehensive financing of the company's capital requirements and those of its lessee, the Union Traction Co. of Philadelphia, and a plan to that end was presented by Edward T. Stotesbury, Philadelphia (who it provided should become managing director), and submitted for ratification by the stockholders on February 28, 1911. The plan provided that a controlling interest in the stock shall be deposited in a voting trust for five years. The further provisions included the assignment to the Union Traction Co. of the Market Street Elevated Passenger Railway Co. and the other companies owned by this company, the same to be treated as part of the property leased by this company from the Union Traction Co. The last named company was to guarantee an issue of $10,000,000, 5 per cent. bonds of this company, and pledge its equity in the Market Street Elevated Passenger Railway Co. as additional security for same. This plan was ratified by the stockholders and carried into effect in 1911.

The stock is now full paid. It was, when originally issued, $5 per share paid. In May, 1903, a call was made for a second installment of $5, payable on or before July 6, 1903. The call was made to provide funds for the construction of the Market Street subway and other improvements. In December, 1903, a call was made for a third installment of $5 per share, payable January 20, 1904. The fourth installment of $5 per share was payable January 20, 1905, the fifth of $5, July 10, 1906, the sixth, of $5, December 10, 1906, stock $30 per share, or 60 per cent. paid in. In February, 1907, a plan was ratified whereby the balance due on the stock should be called and paid in at the rate of $5 per share every six months and the money applied to improvements and extensions. A payment of $5 was called for in March, 1907, making the stock $35 per share paid, and two further final payments of $7.50 each were called for September 1, 1907, and September 8, 1908, respectively, completing full payment.

Under the financial plan adopted in 1911 a majority of the company's stock was deposited in a voting trust for five years, the trustees being Rudulph Ellis, A. E. Newbold and George H. McFadden. Secretary of Voting Trustees, A. M. Gray, Philadelphia. Depositary, Fidelity Trust Co., Philadelphia.

The new company in 1912 acquired the New York City Interborough Railway Co., and the Mid-Crosstown Railway (formerly the Twenty-Eighth and Twenty-Ninth Streets Crosstown Railway). In March, 1913, the company acquired the Belt Line Railway Corporation (formerly the Central Park, North and East River Railway).

The old Third Avenue Railroad Co. was incorporated in New York, October 8, 1853. In March, 1900, control was acquired by the Metropolitan Street Railway Co., and on April 13, 1900, the road was leased to that company for 999 years. On January 6, 1908, the property was placed in the hands of a Receiver, the January, 1908, interest on the consolidated mortgage bonds having been defaulted. Receiverships were subsequently ordered for certain of the subsidiary companies of the system. It was understood that the Metropolitan Street Railway Co. disposed of its interests in Third Avenue Railroad stock in 1909.

The capitalization of the old Third Avenue Railroad Co. consisted of $15,995,800 stock, $5,000,000 1st mortgage 5 per cent. bonds and $37,560,000 consolidated mortgage 4 per cent. bonds, due January, 2000, January and July. A committee to represent the 4 per cent. consolidated mortgage bonds was formed: Chairman, James N. Wallace, New York. Depositary, Central Trust Co., New York. Suit to foreclose the consolidated mortgage was instituted and the property of the company was sold on March 1, 1910, and purchased for the bondholders' committee for $26,000,000. See below in regard to plan of reorganization formulated by the committee, and carried into effect in December, 1911, the New York Court of Appeals having overruled the objections of the Public Service Commission to the plan.

The January, 1908, coupons on the Third Avenue Railroad 1st mortgage bonds were not paid at maturity, but were taken up and the subsequent coupons were paid by the Receiver. These bonds were not disturbed in the reorganization.

The Third Avenue Railway 1st refunding mortgage is for $40,000,000 authorized, the balance of the issue being reserved to retire the bonds of other roads of the system and to provide for improvements, etc. Trustee of mortgage, Central Trust Co., New York.

The Third Avenue Railway adjustment bonds are $22,536,000 authorized, and are entitled to up to 5 per cent. interest per annum, if earned. They have voting power until full interest, including accumulations, has been paid for five years. Trustee, United States Mortgage & Trust Co., New York. The initial dividend on the adjustment bonds was 1¼ per cent., April 1, 1913. On October 1, 1913, paid 2½ per cent., and on April 1, and October 1, 1914, 2½ per cent. On April 1, 1915, also paid 2½ per cent.

The consolidated bondholders' committee of the old company under date of December, 2, 1909, submitted a plan of reorganization which proposed the creation of the new company with $16,590,000 capital stock and the first refunding 50-year 4 per cent. bonds and adjustment mortgage 5 per cent. income bonds described above. The plan left the $5,000,000 of old 1st mortgage 5 per cent. bonds undisturbed.

The provisions of the reorganization plan in respect to the exchange of the old securities for those of the new company were as follows:

	Paid Assessment	Received: 1st Refunding 4s	Received: Adjustment 5s	Received: New Stock
Third Ave. Railroad stock.....	45 per cent.	40 per cent.	.....	45 per cent.
Consolidated 4s.....	.....	25 " "	60 per cent.	25 " "

The "stamped" consolidated mortgage bonds represented the advance to holders of such bonds of the amount of the January, 1908, coupon by Kuhn, Loeb & Co., New York. The assessment of 45 per cent. on the old stock was underwritten by the Central Trust Co., New York. It provided $7,200,000 cash for the retirement of the Receiver's certificates and the purposes of the reorganization. The assessment was made payable on deposit of the old stock or $15 on deposit thereof, December 15, 1911, $15 January 15, 1912, and $15 February 15, 1912.

In February, 1906, the authorized common stock was increased from $10,000,000 to $25,000,000 to provide for the acquisition of a majority interest in the Philadelphia Co. and other corporate purposes.

The first dividend on the preferred stock was 1½ per cent., paid January 3, 1903, and similar dividends were paid in July, 1903, and January, 1904. In July, 1904, 1¾ per cent. was paid, on January 3, 1905, 2 per cent., July 1, 1905, 2 per cent., January 2, 1906, 2½ per cent., and in March, 1906, a dividend of 4¾ per cent. was declared payable May 1, 1906, completing the arrears of cumulative dividends on the preferred. In consequence of the San Francisco earthquake this dividend was paid in interest bearing scrip instead of in cash, the payments being in April. In July, 1906, and January, 1907, scrip dividends of 2¼ per cent. were also paid, but the July, 1907, dividend was passed and none have been paid to January, 1914, inclusive.

In January, 1914, there were approximately 32½ per cent. of accumulated dividends on the preferred, and in March, 1914, a plan was submitted for readjusting the debt of the company. The plan involved the retirement of the preferred stock dividend scrip, the 6 per cent. convertible bonds and the 6 per cent. serial notes. It further provides for the creation of $12,500,000 prior preference 7 per cent. cumulative stock, of which $4,368,000 are to be sold at par in cash. The old preferred stock is to be exchanged for common stock and new prior preference stock. This plan had not been carried into effect up to January, 1915.

American Rubber Co., Boston.
The Joseph Banigan Rubber Co., Providence.
Boston Rubber Co., Boston.
Boston Rubber Shoe Co., Boston.
L. Candee & Co., New Haven, Conn.
Colchester Rubber Co., Colchester, Conn.
Goodyear's Metallic Rubber Shoe Co., Naugatuck, Conn.
Goodyear's India Rubber Glove Manufacturing Co., Naugatuck, Conn.
Lycoming Rubber Co., Williamsport, Pa.
Marvel Rubber Co., Woonsocket, R. I.

New Brunswick Rubber Co., New Brunswick, N. J.
New Jersey Rubber Shoe Co., New Brunswick, N. J.
Para Rubber Shoe Co., Boston.
Woonsocket Rubber Co., Woonsocket, R. I.

In May, 1905, this company purchased a large majority of the stocks of the Rubber Goods Manufacturing Co. See below. In 1910 acquired the Revere Rubber Co. In 1909 acquired an interest in the Canadian Consolidated Rubber Co. In 1912 it acquired the Rubber Regenerating Co., Mishawaka, Ind., and its controlled organization, The Rubber Regenerating Co., Manchester, England.

The General Rubber Co., formed in 1905, to deal in crude rubbers, and which has a capital of $10,000,000, is jointly controlled by this company and the Rubber Goods Manufacturing Co. The General Rubber Co. has acquired large holdings of rubber land in Sumatra.

In 1906 this company organized an English corporation, Wm. Symington & Co., Limited, with an authorized capital of $2,500,000, for the purpose of dealing in crude rubber.

The authorized common stock was $25,000,000. In June, 1912, it was decided to make the company's authorized capital $120,000,000, consisting of $40,000,000 common and $80,000,000 preferred. This action was accompanied by a decision to pay a stock dividend of $5,000,000, or 20 per cent., in common stock of the $25,000,000 of common then outstanding, and to offer all stockholders the right to subscribe at par for $10,000,000 new 1st preferred stock. Furthermore the 2d preferred stockholders were to be invited to exchange same for 1st preferred. The subscription for the $10,000,000 new 1st preferred was offered to all stockholders of record Feb

12, 1912. All stockholders of record November 14, 1913, received the right to subscribe at par for a further issue of $9,422,000 1st preferred stock, being to the extent of 10 per cent. of their holdings, the subscriptions being payable December 15, 1913. This increased the 1st preferred outstanding to $59,330,900.

The 1st preferred stock is 8 per cent., non-cumulative. The authorized amount was originally $25,000,000, but it was increased in May, 1905, to $40,000,000, and to $80,000,000 in 1912, as stated above. The 2d preferred stock is 6 per cent., non-cumulative, and was created in 1905, in connection with the plan to acquire control of the Rubber Goods Manufacturing Co. In December, 1912, holders of the 2d preferred were offered the privilege of exchanging same for 1st preferred on the basis of 3 shares of 1st preferred for 4 shares of 2d preferred. Stock is transferred at the office of the company, New York. Registrar, Central Trust Co., New York.

The company from 1893 to 1900, inclusive, paid 8 per cent. per annum on its preferred (now 1st preferred) stock, except in 1897, when 6 per cent. was paid. In January, 1901, the quarterly dividend on the preferred was reduced from 2 to 1 per cent., and no further dividends were paid from that date until June, 1904, when dividends on the preferred were resumed with a payment of 1½ per cent., further dividends of 1½ per cent. each being paid on September 15, 1904, December 15, 1904, and March 15, 1905. In May, 1905, 2 per cent. and 1½ per cent. extra were paid, and in August and October, 1905, and January, 1906, 2 per cent. was paid, which has since been the regular quarterly rate, paid in January (31), April, July and October on the 1st preferred.

The first dividend on the 2d preferred stock was 1½ per cent. quarterly, paid October 31, 1905, and similar quarterly dividends, being 6 per cent. per annum, have since been paid in January (31), April, July and October.

In March, 1895, 2½ per cent. was paid on the common stock, being the first dividend on the common. In December, 1896, 2 per cent. was declared on the common, payable February 15, 1897. In July, 1899, 1 per cent. was paid on the common. Dividends of 1 per cent. each were also paid on the common October, 1899, January, 1900, and April 30, 1900, but the July, 1900, dividend was passed and there were no further dividends on the common stock until the payment of 1 per cent. quarterly, October 31, 1911. On January 31 and in April, July and October, 1912, and January, 1913, 1 per cent. quarterly was also paid. Since April, 1913, 1¾ per cent. quarterly has been paid on the common. On July 8, 1912, the common stockholders received a stock dividend of 20 per cent. in common stock.

The arrangement under which this company acquired nearly all of the common and preferred stock of the Rubber Goods Manufacturing Co., as per plan of May 27, 1905, included the acceptance by the common stockholders of that company of 50 per cent. of the par value of their stock in 2d preferred stock of this company, and by the Rubber Goods preferred shareholders of an equal amount of the 1st preferred stock of this company. For this purpose there was issued $7,937,500 of this company's 1st preferred and $9,965,000 of its 2d preferred stock.

UNITED STATES STEEL CORPORATION

A corporation formed under the laws of New Jersey, February 25, 1901, the articles of incorporation having been amended April 1, 1901. The corporation was organized to acquire the stocks of companies engaged in the steel and allied industries.

On October 26, 1911, the United States Government filed a petition in the United States Circuit Court for New Jersey, against this corporation and a number of its subsidiaries, alleging that it violated the Anti-Trust Law of July 2, 1890, and asking that it be declared illegal and dissolved. The company has contested the suit, its answer having been filed February 1, 1912, taking of testimony having been in progress during 1914 and the beginning of 1915.

The organizations acquired by this corporation, including those purchased after its formation, were as follows:

The Carnegie Co.	American Bridge Co.	Union Steel Co.
Federal Steel Co.	American Steel Hoop Co.	Troy Steel Products Co.
American Steel & Wire Co.	American Sheet Steel Co.	Clairton Steel Co.
National Tube Co.	Shelby Steel Tube Co.	Tennessee Coal, Iron & Railroad Co.
National Steel Co.	Lake Superior Consolidated Iron Mines.	
American Tin Plate Co.		

Several of the constituent companies have been consolidated in order to economize and concentrate the operations of the corporation and other subsidiary companies have been organized.

The Union Steel Co. and its controlled property, the Sharon Steel Co., were acquired in 1902, the Troy Steel Products Co. being also acquired in the same year. In May, 1904, the Clairton Steel Co. was acquired from the Crucible Steel Co. of America.

In 1906 a subsidiary company, the Universal Portland Cement Co., was formed, which took over the cement plants near Chicago, which had been operated by the Illinois Steel Co. The new company constructed two additional plants at Buffington, Ind., and Universal, Pa.

The Elgin, Joliet & Eastern Railway, the Pittsburg, Bessemer & Lake Erie Railroad, Duluth & Iron Range Railroad, Duluth, Missabe & Northern Railway, Chicago, Lake Shore & Eastern Railway, and Birmingham Southern Railroad, with some short railroad lines, are owned or controlled by various constituent companies acquired by this company, the mileage of all such lines December 31, 1914, being 993.30 miles, with 602.68 miles of branches and spurs, and 365.12 miles of trackage. The equipment of the same comprised 1,233 locomotives and 52,669 cars.

In addition to the manufacturing plants are Lake Superior and Southern iron mines, the production of which in 1913 was 28,738,451 tons of ore, and in 1914, 17,034,981 tons. The marine equipment operated in conjunction with the different properties consisted of 83 steamers and numerous barges, etc. The coking interests comprise 72 plants, which produced in 1913, 16,663,480 tons, and in 1914, 11,173,914 tons. The coal interests comprise in the northern division of the property 133,591 acres of coking coal, 90,709 acres of steam coal and surface rights to 24,853 acres, besides which the Tennessee Coal, Iron & Railroad Co. has 179,859 acres of coal lands, together with mineral interests and surface rights in 147,652 acres additional. The corporation also owns water supply plants, natural gas properties, and ore docks on the lakes.

In 1905 it was decided to erect a new large modern steel plant in the Chicago district. To this end the Indiana Steel Co. was incorporated, which built the plant, the first units of which went into operation during 1909, and which was practically completed in 1911. The corporation also controls the Gary Land Co., which owns the site of the City of Gary, Ind., where the plant is located, a tract of about 9,000 acres having been acquired with a large frontage on the shore of Lake Michigan. The new plant includes blast furnaces, open-hearth steel furnaces, blooming and rail mills, finishing mills and accessory works. Up to December 31, 1911, $78,258,508 had been expended for these purposes, including payments for real estate, of which $65,000,000 was provided from the corporation's surplus specially appropriated. In 1912, $1,725,052, and in 1913, $2,960,124 additional was expended for extensions, etc., of the Gary, Ind., properties and charged to capital account.

In October, 1906, arrangements were made to lease a large acreage of iron ore lands belonging to the Great Northern Railway Co., title to which was held by the Lake Superior Co., Limited, a subsidiary organization of the Railway Co. The properties were leased to the Great Western Mining Co., a corporation controlled by the United States Steel Corporation, which latter organization it was provided should guarantee the lease. Under the lease the lessee was to mine from the property a minimum of 750,000 tons of ore in the year 1907, and the amount to be mined shall be increased by 750,000 tons each year until it reaches 8,250,000 tons. The annual minimum to be thereafter that amount until the ore is exhausted, unless the lease was terminated on January 1, 1915, under an option reserved by the lessee. The royalty to be paid was $1.65 per ton for ore containing 59 per cent. of metallic iron in the ore mined and shipped in 1907, but this base price was to increase by 3 4-10 cents per ton each succeeding year, the royalty, however, to be increased or diminished on a fixed scale as the ore proved to be higher or lower in grade than the above 59 per cent. of metallic iron. In 1911 it was, however, decided to terminate the lease, under the provision referred to above, on January 1, 1915. On October 26, 1911, the Great Western Mining Co. accordingly gave notice to that effect, the relations to these properties being duly terminated January 1, 1915.

In November, 1907, the corporation acquired $30,374,825 par value of the common stock of the Tennessee Coal, Iron & Railroad Co., being all but $220,160 of the amount thereof outstanding. In payment therefor the corporation delivered its 10-60 year sinking fund, 5 per cent., gold, at the rate of $11,904.76 of said bonds for each $10,000 par value of the stock, the total par value of the bonds issued or purchased in connection with this transaction being $35,317,632. See statement of the Tennessee Coal, Iron & Railroad Co.

See below in regard to the reduction of the preferred stock from $510,314,100 issued and outstanding in 1902 to the present amount of $360,281,100. The stock may be increased from time to time at the discretion of the directors.

The total funded debt, December 31, 1914, held by the public (including the bonds of the controlled railroads and those of the Tennessee Coal, Iron & Railroad Co.) was $627,045,112. On December 31, 1914, there were also real estate mortgages and purchase money obligations amounting to $6,492,218, of which $5,390,974 consisted of notes of subsidiary companies endorsed by United States Steel Corporation in part payment for iron ore properties. On December 31, 1914, there was held by the trustees of sinking funds for the bonds of the United States Steel Corporation and subsidiary companies $82,859,000 of par value of bonds (not included in above table) on which an annual amount equal to the interest thereon was payable.

The collateral trust 5 per cent. bonds, due 1951, were $304,000,000, authorized, secured by the deposit with the United States Trust Co., New York, of the securities of the constituent companies acquired by this corporation. Series A, C and E of the bonds, aggregating $154,000,000, can, since April 1, 1911, be called at 115 in whole or part. A sinking fund of $3,040,000 per annum began June 1, 1902, to purchase bonds at not above 115 and interest, and since April 1, 1911, bonds of the series mentioned above may be drawn for the sinking fund. On December 31, 1914, the sinking fund held $46,694,000 of the bonds. Coupons of the collateral trust 5 per cent. bonds, due 1951, are payable at the office of J. P. Morgan & Co., New York.

The collateral trust sinking fund 10-60 year 5 per cent. bonds, due 1963, are $250,000,000 authorized and are subject to call at 110. There is a sinking fund of $1,010,000 per annum, the bonds purchased to be kept alive in the sinking fund, which, on December 31, 1914, held $14,861,000 of the issue. Bonds are drawn annually in March for redemption through the sinking fund at 110 on May 1, $1,501,000 being thus drawn in 1914, and $1,603,000, in 1915. No foreclosure suit can be brought until default has continued for two years. Trustee of the mortgage, United States Trust Co., New York. Coupons are paid at the office of J. P. Morgan & Co., New York. See MANUAL for 1909 in regard to the terms for the conversion of a part of the preferred stock into the 5 per cent. sinking fund bonds. The original plan included the issue of $200,000,000 of the bonds against the conversion of that amount of preferred stock, as stated above, and the sale of $50,000,000 at par for cash to provide for improvements and additional working capital.

Under these arrangements the amount of the 5 per cent. sinking fund bonds issued was $170,000,000, and the preferred stock outstanding was reduced from $510,314,100 to $360,281,100. See above regarding the further issue of the bonds in 1907, in connection with the acquisition of the Tennessee Coal, Iron & Railroad Co.

The Union Steel Co. 1st mortgage was created in 1902 and is $45,000,000 authorized. Trustee of the mortgage, New York Trust Co., New York. Principal and interest is guaranteed by the United States Steel Corporation. There is a sinking fund of 2 per cent. of the amount of the bonds each year, bonds to be purchased at not above 110 after 1907, the bonds to be redeemable at 110 and interest. The sinking fund on December 31, 1913, held $12,225,000 of the bonds.

The H. C. Frick Coke Co., Pittsburg-Monongahela purchase money mortgage was created in 1911 in connection with the acquisition of coal lands from the Pittsburg Coal Co., and the Monongahela River Consolidated Coal & Coke Co. The bonds are guaranteed by the United States Steel Corporation.

The Indiana Steel Co. 5 per cent. 1st mortgage is dated May 1, 1912, and is $40,000,000 authorized. The issue is secured upon the Gary, Ind., plant, which, to December 31, 1911, had involved a cash expenditure of $78,258,508. The bonds are redeemable in whole or part at 105 on any interest date beginning November 1, 1916. There is a sinking fund beginning May 1 1916, of 1 per cent. of the bonds issued prior to May 1, 1922, and 1½ per cent. of the amount issued after that date. Trustee of mortgage, Bankers Trust Co., New York. The bonds are guaranteed, principal and interest, by the United States Steel Corporation.

The National Tube Co. 5 per cent. 1st mortgage is dated May 1, 1912, and is for $15,000,000 authorized. The issue is secured upon the plant at Lorain, O. The bonds are redeemable in whole or part at 105 on any interest date beginning May 1, 1916. There is an annual sinking fund of 1 per cent. of bonds issued beginning May 1, 1916. Trustee of mortgage, New York Trust Co., New York. The bonds are guaranteed, principal and interest, by the United States Steel Corporation.

The Illinois Steel Co. 4½ per cent. debentures are dated April 1, 1910, the authorized issue being $30,000,000, of which $12,828,000 were reserved to retire all other funded debt of the company, and $10,114,000 were outstanding prior to the sale of $5,500,000 additional in March, 1912. The debentures are redeemable at 105 on any interest date beginning April 1, 1915. Trustee, New York Trust Co, New York. The debentures are guaranteed, principal and interest, by the United States Steel Corporation.

See statements of the Elgin, Joliet & Eastern Railway; the Chicago, Lake Shore & Eastern Railway; the Pittsburg, Bessemer & Lake Erie Railroad; the Duluth & Iron Range Railroad, and the Duluth, Missabe & Northern Railroad, under their respective titles in the Railroad Section of the MANUAL, for their funded debts.

A corporation formed under the laws of Pennsylvania in 1872. The company manufactures electric apparatus and appliances for lighting and power plants, electric locomotives, motors for all uses, electric devices for heating and general domestic uses, arc and incandescent lamps of all kinds, and lighting ignition and starting devices for automobiles. It has a plant at East Pittsburgh, Pa., and branches at Cleveland, O., Bridgeport, Conn., Bloomfield, N. J., and Newark, N. J.

In January, 1915, a plan to acquire the Westinghouse Machine Co. was submitted and duly carried into effect in March, 1915. Under the plan the $7,510,750 stock (par $50) of the Machine Co., was exchanged for stock of the Electric Co., in the proportion of one share of the latter to 3 shares of the Machine Co.'s stock. The amount of this company's stock issued for the acquisition of all but a small part of that of the Machine Co. was $2,156,100.

In 1899 the British Westinghouse Electric & Manufacturing Co. was incorporated with £1,000,000 preference 6 per cent. stock and £750,000 ordinary stock. The American company acquired all the common stock as a consideration for the right to use its patents in Great Britain and its dependencies, except in North America. The British company has a plant at Trafford Park, Manchester, England. It has taken over the parent company's French interests. In 1903 the Canadian Westinghouse Co., Limited, was organized. See statement of this company.

On October 23, 1907, Receivers were appointed, who were discharged December 5, 1908, a readjustment plan having been successfully carried out. The readjustment of the company's finances was effected by a committee representing the bank creditors and merchandise creditors. The plan originally submitted in April, 1908, was modified in October, 1908, when finally adopted by the Readjustment Committee. It provided that the merchandise creditors should accept new assenting (common) stock at par for their claims, which amounted to $5,243,609. The holders of the bank claims, which were $7,919,000, were offered convertible bonds, 5 per cent. notes, due in four, five, six and fifteen years, in the proportion of 50 per cent., 30 per cent. and 20 per cent., respectively, and assenting stock. The four and five-year notes have been retired. The preferred and common stockholders were asked to subscribe for 25 per cent. of new common stock at par to the extent of $6,000,000.

The preferred stock is 7 per cent., cumulative, and participates with the common in further division of profits when the latter has received 7 per cent. The common stock was denominated "assenting stock" on account of certain provisions regarding it made in 1891. In 1911 it was decided to change this description, and in November, 1911, holders of the assenting stock were invited to exchange their certificates for new ones identical in all respects except in being for common stock.

In March, 1906, the authorized common stock was increased from $21,000,000 to $46,000,000 to provide for the conversion of the convertible bonds and future requirements. In November, 1908, the authorized amount of the common stock was increased to $56,000,000 to provide for the terms of the readjustment. Of the common stock issued $1,770,000 is in the company's treasury.

In addition to the above there was outstanding February 28, 1915, of the old debt, which matured prior to January 1, 1861, $903,540, together with $610,340 of different loans matured or called for payment since that date, on all of which interest has ceased, making an aggregate of $1,514,880 of debt on which interest had ceased since maturity.

The 2 per cent. consols of 1930 were authorized by the Act of March 3, 1900, known as the Currency and Refunding Act. Of the bonds of this issue $642,812,400 are registered and $3,437,750 coupon. The bonds outstanding were issued in exchange for 3s of 1908, 4s of 1907 and 5s of 1904, under the provisions of the Act named above and the terms designated by the Treasury Department in a circular dated March 14, 1900. The Act provided that the old bonds named above should be exchangeable for new 2s, provision being made for the payment in cash to holders of the old bonds, making the exchange of the difference between their par value and their value computed on a basis to yield 2½ per cent. per annum. The right to exchange the old bonds was suspended by the Treasury Department, under Section 11 of the Act, on December 31, 1900, but was resumed from time to time, the latest occasion being under a circular of the Secretary of the Treasury issued April 2, 1907. These bonds are in denominations as follows: Coupon, $50, $100, $500 and $1,000; registered $50, $100, $500, $1,000, $5,000, $10,000 and $50,000. The greatest part of this issue is owned by National banks, which on February 28, 1914, had deposited $603,604,500 thereof to secure National bank circulation, $13,920,850 additional being deposited to secure government deposits in the National banks. The new currency and banking law or Federal Reserve Act, approved December 23, 1913, contained provisions for the retirement

of the 2 per cents. and other issues used to secure National bank notes. The plan involves the retirement of bonds so held at the rate of $25,000,000 per annum, their place to be taken by new Treasury notes or short term 3 per cent. bonds.

The 3 per cent. War Loan of 1908–1918 was authorized by the Act of June 13, 1898. The bonds were created and issued to provide for the expenditure caused by the Spanish War. They are redeemable after August 1, 1908, at the Government's option. The bonds were placed by a public subscription under a Treasury circular dated June 13, 1898, the subscription, which closed July 14, 1900, aggregating $1,325,000,000. These bonds, both coupon and registered, were issued in denominations of $20, $100, $500 and $1,000 and also in registered denominations of $5,000 and $10,000.

The 4 per cent. loan of 1925 was authorized by the Act of January 14, 1875, Resumption Act, and Section 3,700 of the Revised Statutes of the United States, Act of March 17, 1862, the latter empowering the Secretary of the Treasury to purchase coin with bonds or notes of the United States. These bonds are issued in denominations of $50, $100, $500, $1,000, $5,000 and $10,000 registered and $50, $100, $500 and $1,000 coupon.

The Panama Canal 2 per cent. bonds were authorized by the Acts of June 28, 1905, and December 21, 1905, the amount authorized being $130,000,000, and the bonds are redeemable at the pleasure of the United States after ten years from date of issue. Bonds can be coupon or registered and may be issued in denominations of $20 or multiples thereof. The original $54,631,980 of these bonds were sold in 1906 and on July 20, 1906, $30,000,000 additional were issued. On February 28, 1914, National banks had deposited $52,939,560 of the Panama Canal 2s, due 1936, as security for National bank circulation, and had likewise deposited $28,906,140 of the Panama Canal 2s, due 1938, for the same purpose. See above, in connection with the 2 per cent. consols of 1930, regarding the provisions of the Federal Reserve Act of December 23, 1913, for the retirement of the 2s held to secure National bank notes.

The Panama Canal 3 per cent. bonds of 1911 were issued under the Acts of August 5, 1909, as supplemented by Acts of February 4, 1910, and March 2, 1911. The bonds of this issue were made *not* receivable like all other United States Government bonds as security for the note circulation of National banks, although receivable as security for public deposits in such banks. They are issued in coupon and registered form and are in denominations of $100, $500 and $1,000.

UNITED STATES OF MEXICO

External Debt

Consolidated external gold loan, 5 per cent., quarterly, Jan., April, July and Oct...	£21,180,720
4 per cent. gold bonds of 1904, due Dec., 1954, June and Dec.....	$37,037,900

There are also various internal loans payable, interest and principal, in silver.

The Mexican consolidated external 5 per cent. gold loan of 1899 was created to refund and retire outstanding 6 per cent. and 5 per cent. gold bonds aggregating £16,283,000. A majority of the old bonds was exchanged for the new 5s, the balance being called and paid off. The principal of the loan was £22,700,000, agreed equivalent in United States currency at $4.85 to the £, or $110,095,000; in German marks, 463,000,000. The bonds are coupon, to bearer, and are without provision for registration. They are issued in fixed denominations of £20, £100, £200, £500 and £1,000, or $97, $485, $970, $2,425 and $4,850, respectively, in United States gold coin of the present standard, also in German marks. Coupons are payable quarterly on January (1) April, July and October. Each quarterly coupon of the £200 bonds calls for £3 10s., $12.12½, or 51 marks. Coupons on bonds of the other denominations are in proportion to these amounts. Coupons are payable at holder's option either in London by Morgan, Grenfell & Co.; in New York by J. P. Morgan & Co.; in Berlin by S. Bleichroder or the Deutsche Bank, and in Amsterdam. The first coupon matured April 11, 1900.

No period is fixed for the maturity of the bonds. The Mexican Government, however, obligates itself to pay from January 1, 1900, a semi-annual sinking fund of 0.31 per cent. of the original amount of the loan. By the operation of the sinking fund it is calculated that the entire issue will be retired within forty-five years. Bonds may be purchased for the sinking fund at below par or drawn and retired at par. After July, 1909, the Mexican Government has the right to increase the sinking fund payments or to pay off the loan at par on three months' notice. The bonds and coupons are free from any existing or future Mexican tax. Bonds drawn for the sinking fund are payable at holder's option by any of the firms named above as agents for the payment of coupons at the fixed equivalent amounts in the currencies of the respective countries. As security for the interest and sinking fund the Mexican Government pledged 60 per cent. of its combined import and export duties.

The 4 per cent. gold bonds of 1904 were $40,000,000 in amount, divided into two series, A and B respectively. The issue was created to pay off $18,500,000 of 4½ gold treasury

notes due June 1, 1905, and June 1, 1906, which were called for redemption February 1, 1905; $15,123,000 6 per cent. silver subvention bonds for the Vera Cruz & Pacific Railway (now Vera Cruz & Isthmus Railway Co.) and the Mexican Southern Railway and certain amounts of special silver obligations issued for the construction of various railways and harbors. Principal and interest are payable in New York in United States gold coin at the office of Speyer & Co., or, at the holder's option, in London, at the rate of $4.86 per pound sterling, or in Frankfort or Berlin at the rate of 4.20 marks per dollar, or in Paris at the rate of 5.18 francs per dollar. The bonds are in the denominations of $1,000 and $500 United States gold coin or the equivalents in foreign currencies. They are dated December 1, 1904, mature December 1, 1954, and have coupons attached payable June 1 and December 1. The bonds are to be always exempt, both as to principal and interest, from all Mexican taxes already established, or that may in future be established by any authority. A semi-annual sinking fund provides for the gradual retirement of the bonds in fifty years. During the first five years bonds are to be drawn for redemption at par; after that time bonds will be purchased in the market, if the market price be below par; otherwise they will be drawn at par. Except by the operation of this sinking fund the bonds are not subject to compulsory retirement.

The Mexican Government has guaranteed by indorsement an issue of $7,000,000 1st mortgage 4½ per cent. bonds, due July, 1934, interest January and July, of the Vera Cruz & Pacific Railway Co., now the Vera Cruz & Isthmus Railway. See statement of the latter in the Railroad Section of the MANUAL.

On April 6, 1908, it was announced that the Mexican Government would guarantee by indorsement both interest and principal of an issue of $160,000,000 in United States gold 4½ per cent. general mortgage sinking fund redeemable bonds of the Ferrocarriles Nacionales de Mexico (National Railways of Mexico), the company organized to consolidate the Mexican Central Railway Co., Limited, and the National Railroad Co. of Mexico. Details of this issue are given in the statement of the National Railways of Mexico in the Railroad Section of the MANUAL.

REPUBLIC OF CUBA

EXTERNAL DEBT

External debt, 5 per cent. gold bonds, due March, 1944, March and Sept.....$30,137,500
External loan, 4½ per cent., due Aug. 1949, Feb. and Aug..... 16,500,000
External debt, gold bonds of 1914, Series A, 5 per cent., due Feb., 1949, Feb. and Aug. 9,908,000

The 5 per cent. gold bonds of 1904–1944 were issued in conformity of a law passed by the Congress of Cuba, February 22, 1903, as amended January 25, 1904. By this law the President of the Republic was authorized to issue a 5 per cent. loan in gold, in money of the United States or in sterling, at the rate of $4.86 for each £. The coupons and bonds are payable at the option of the holder in New York in United States gold coin; in London in pounds sterling; in Frankfort and Berlin in reichsmarks, and in Paris in francs. The Republic of Cuba pledges its good faith for the payment of the bonds and the principal thereof, the law authorizing the loan having created special taxes upon wines, liquors, tobacco and other articles, which taxes shall remain in force during the life of the loan or any part of it. Under the contract between the Government of Cuba and Speyer & Co., New York, for the sale of the bonds to that house, dated May 11, 1904, the Government furthermore, as special security for the loan, pledged, with preference over any future pledges or hypothecations, 15 per cent. of the customs receipts of the Republic, a sum equal to which is to be paid weekly to Speyer & Co. in New York, or their agents in Havana, until the amounts received by them are equal to the amount required for the annual charges for the year then current for interest and sinking fund payments. If the 15 per cent. of the customs receipts shall prove insufficient, the Cuban Government agrees to set aside and pledge such an additional amount of the customs receipts as will in eleven months produce the requisite amount.

There is a sinking fund for the redemption of the bonds, which commenced March 1, 1910, the same consisting of $1,020,000 per annum, to be paid to Speyer & Co. in monthly installments of $85,000 each. These amounts shall be applied to the purchase of bonds at par; otherwise bonds can be drawn by lot for redemption at par and interest.

Coupon bonds may be exchanged at the office of Speyer & Co., New York, for registered bonds. Principal and interest of the registered bonds are payable only in United States money at New York, and such registered bonds may be re-exchanged for coupon bonds.

The 4½ per cent. external loan due August, 1949, is limited to $16,500,000 as the amount authorized by decree of the Provisional Governor of Cuba, with the approval of the Secretary of War of the United States, this authorization having been given in 1909. Under the terms of the decree the proceeds of the loan are to be devoted to the retiring of $2,196,585, 6 per cent., bonds of the Republic of Cuba and to pay for sewering and paving the City of Havana, the

extension of its water supply, and the installation of a water and sewer system in Cienfuegos. Under agreement between the Republic of Cuba and Speyer & Co., New York, dated August 25, 1909, the Government is to deliver only $5,500,000 of these bonds each year. The first installment of $5,500,000 was so delivered in September, 1909, the second installment of $5,500,000 in February, 1910, and the third and last installment of $5,500,000 in February, 1911. Principal and interest are payable in New York, in United States gold coin, at the office of Speyer & Co.; in London, at $4.86 per £1; in Berlin or Frankfort, at 4.20 marks per dollar, or in Paris, at the rate of 5.18 francs per dollar. They are redeemable on the first day of any month at 105 and interest upon 30 days' notice, and on and after August 1, 1919, will be subject to drawing, at par and interest, for the sinking fund. The Government of Cuba pledged as much of its customs receipts as shall be necessary for the interest and sinking fund requirements. Bonds are in denominations of $1,000 each in coupon form.

The external debt, 5 per cent. gold bonds of 1914, are $10,000,000, authorized. Interest is payable in New York in American gold coin or in London in sterling at the rate of $4.86 to the £1. The Cuban government agrees to amortize the bonds at the rate of one-twenty-ninth thereof (equal to about $345,000 of the issue) annually, the government also, under agreement with J. P. Morgan & Co., New York, who were the bankers in the transaction, covenanting to deposit $29,500 each month with the bankers for the sinking fund. Bonds are to be purchased for the sinking fund at 102½ or less.

The Republic of Cuba also has various internal loans incurred since the formation of the present government of the island.

The first operation of the sinking fund was in December, 1909. Drawn bonds are payable on March or September 1 following the date of the drawing. There was issued in the United States £2,000,000, or $9,730,000, of the bonds, the same being offered in February, 1909, by J. P. DOMINICAN REPUBLIC

Customs Administration bonds, 5 per cent., due Feb., 1958, Feb. and Aug.....$13,566,000
Treasury sinking fund gold notes, 6 per cent., due January, 1919, Jan. and July..... 935,000

The Customs Administration 5 per cent. sinking fund bonds are $20,000,000, authorised by a Dominican law, dated September 16, 1907. They were issued under a treaty with the United States of America, dated February 8, 1907, whereby the administration and collection of all customs of the Republic, whether imports or exports, during the life of the bonds shall be effected by a General Receiver appointed by the President of the United States, and applied to the service of the loan, and that out of these collections the General Receiver shall pay to the Fiscal Agent the

sum of $100,000 on the first day of each month. The Dominican Government on September 16, 1907, made a Fiscal Agency Agreement with the Morton Trust Co., now the Guaranty Trust Co., New York, which provides that payment of said bonds is secured as to both principal and interest as a first charge upon all customs duties under said treaty with the United States. The bonds are dated February 1, 1908, and are payable, principal and interest, in United States gold coin at the office of the Guaranty Trust Co., New York, Fiscal Agent, and in London at the fixed rate of $4.87 to the £1; in Paris at 5 francs, 17½ centimes to the dollar and in Hamburg, Germany, at 4 marks, 20 pfennigs to the dollar. The payments of $100,000 each month by the General Receiver to the Fiscal Agent is to provide for the interest on the bonds and a sinking fund of $200,000 per annum, the General Receiver being also required to pay to the Fiscal Agent for the sinking fund one-half of any surplus customs revenues in excess of $3,000,000. The Republic may at any time make additional payments for account of the sinking fund. Bonds are to be purchased for the sinking fund at not exceeding 102½, and if they cannot be purchased at that price are to be drawn by lot for same. Bonds in the sinking fund are to be stamped "not negotiable" and to be kept alive for its benefit.

The 6 per cent. Treasury gold notes are dated January 1, 1913, and were $1,500,000 authorized, $565,000 of the issue having been purchased and retired. The Dominican government makes monthly payments of $30,000 to the National City Bank, New York, for interest and the retirement of the notes, which are subject to call at par on any interest date in their numerical sequence. Under this arrangement the entire issue will have been approximately retired by January 1, 1918.

THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND

The figures given below as the amount of each class of British public funds outstanding, except the terminable annuities, were as of December 31, 1913. The British pound sterling consists of 123.27 grains of gold .916⅔ fine, the equivalent of £1 in United States currency being $4.86⅔.

War loan of 1914, 3½ per cent., redeemable March 1, 1928, March and Sept.....	350,000,000

There are, in addition to the above, local loan stocks created under authority of Act of Parliament and administered by the Commissioners of the National Debt which amount to £72,558,813, bearing interest at the rate of 3 per cent. per annum.

The 2½ per cent. consols were created in 1888 to refund previous issues. They bore 2¾ per cent. until April, 1903, and 2½ per cent. thereafter, but after 1923 may be redeemed at any time at par, as Parliament may decide. Interest is payable quarterly, January (5) April, July and October. The consols are either "inscribed stock," that is, registered, or bonds to bearer.

The 2¾ per cent. annuity stock was issued in 1884 to refund 3 per cent. consols. Since January, 1905, it may be redeemed as Parliament may decide. Interest is payable quarterly, January (5), April, July and October. The stock is either "inscribed" or in the form of coupon bonds to bearer.

The 2½ per cent. annuity stock was created in 1853, and various amounts have been issued to refund old obligations. The stock matured in 1895, but was extended to January, 1905, since when it may be redeemed on one month's notice, as Parliament decides. Interest is payable quarterly, January (5), April, July and October, at the Bank of England.

The terminable annuities represent a description of sinking fund by which a portion of the British national debt is paid off, and, after a certain time, the capitalized sum entirely extinguished. Under various Acts of Parliament, the Treasury is empowered to grant annuities for a term of years in exchange for permanent stock. A holder of £1,000 of 2¾ per cent. consols, for example, can surrender them to the Treasury in return for a fixed payment for a term of twenty years, the consols being cancelled by the operation.

The guaranteed 2¾ per cent. stock, redeemable after 1933, was created under the Irish Land Act of 1903. The guaranteed 3 per cent. stock, redeemable after 1939, was created under the Irish Land Acts of 1903 and 1909.

Interest upon the various classes of British funded obligations is subject to the regular Income Tax, which is deducted from the coupons at the time of payment thereof. Interest in all cases is payable at the Bank of England or the Bank of Ireland.

The war loan of 1914 was created in 1914 for £350,000,000, and was offered for public subscription at 95.

IMPERIAL JAPANESE GOVERNMENT

The currency of Japan is gold standard, the yen of that country consisting of 100 sen, and weighing 25.72 grains of gold, 900-1,000 fine. Its value is 99.7 cents.

GOVERNMENT BONDS

Sterling loan, 4½ per cent., due Feb. 15, 1925, Feb. (15) and Aug.....	£28,250,000
Sterling loan, 2d series, 4½ per cent., due July 10, 1925, Jan. (10) and July.....	£26,250,000
Sterling loan of 1905, 4 per cent., due Jan., 1931, Jan. and July	£25,000,000

There are other government bonds, both internal in yen, and external in sterling, for a considerable amount.

The 4½ per cent. sterling bonds were created in March, 1905, and were offered for subscription in London and New York, one-half of the amount being allotted to each city. The bonds are in coupon form in denominations of £100, £200 and £500. Interest and principal are payable in sterling at London at the office of the Yokohama Specie Bank, Limited, or at its agency in New York, at the fixed rate of exchange of $4.87 per £1. This loan is repayable at par, February 15, 1925, but the Japanese Government reserves the right to redeem at par all or any of the bonds on or at any time after February 15, 1910, on giving six months' previous notice, partial redemption to be effected by drawings at the office of the Yokohama Specie Bank, Limited, London, and the New York agency of the same bank, in the usual manner. The loan is secured, both as to principal and interest, by a first charge upon the annual net revenues of the Imperial Japanese Government Tobacco Monopoly. The Imperial Japanese Government has the exclusive right to control the cultivation and production of the leaf, and to purchase, import, manufacture and sell tobacco. It thus possesses the entire monopoly of the tobacco trade within the limits of the Japanese Empire.

The 4 per cent. sterling loan of 1905 was offered in November, 1905, for subscription in London, New York, Paris and Berlin, £3,250,000 being allotted to New York; Kuhn, Loeb & Co., New York; the National City Bank, New York, and the National Bank of Commerce, New York, offering the same for subscription in November, 1906, at 87 and interest. The authorized amount of the loan is £50,000,000, the unissued balance of £25,000,000 being reserved to convert or redeem the two series of 6 per cent. sterling bonds. The bonds are in coupon form, in denominations of £10, £20, £100, and £200. Interest is payable in sterling at the office of the Yokohama Specie Bank, Limited, London, or at its agency in New York, at the fixed rate of exchange of $4.87 per £1. Interest is also payable at Paris, through De Rothschild Freres, and at Berlin, through the Deutsch-Asiatische Bank. The loan is divided into series of £1,000,000 each and is redeemable at par on January 1, 1931, but the Japanese Government reserves the right to redeem at par all or any of the series of bonds on or at any time after January 1, 1921, on giving six months' previous notice; partial redemption to be effected by drawings of complete series in the usual manner at the office of the Yokohama Specie Bank, Limited, London, and notice of the distinctive number or numbers of series drawn will be given by advertisement in two newspapers in each place where the coupons are payable.
